

HDF-THANKS SCHOLARSHIP

62

Established- 2022

For Nishtar Medical University, Multan

By

SHAGUFTA CHOWHAN

Dr. Shagufta Chowhan is a graduate of Nishtar Medical College (1969). She is a psychiatrist at Oaklawn, South Bend, Indiana. She has 3 children: Samir, Nadia and Seher.

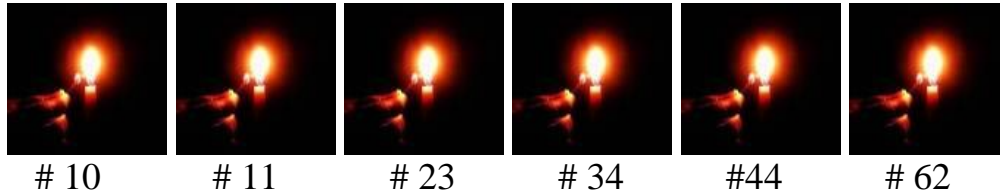

Coordinator's note.

This is a need-based scholarship. Starting in the year 2023, this scholarship will provide yearly assistance to a first-year medical student at Nishtar Medical University-Multan for five years. After five years, this scholarship will become available for another deserving first year student.

HDF-THANKS committee is extremely thankful to Dr. Chowhan for establishing this scholarship for Nishtar Medical University. She has had a strong desire to help bright students to fulfill their dreams: the same wish that her father had for all of his children. What a wonderful way to honor one's parents.

This is Dr. Chowhan's **sixth HDF THANKS scholarship.**

Her first scholarship (HDF THANKS # 10) was in memory of her late husband and was established at the HDF Secondary School at Adam Hingoro Goth, Karachi.

The second scholarship honored her parents and was established at the HDF Girls Secondary School Saeedabad, Mardan.

Her third (THANKS # 23), fourth (THANKS # 34), fifth (THANKS # 44) and the sixth (THANKS # 62) scholarships are for the students at her alma mater.

It has been an honor to listen to her life story and recognize the love she has for her parents and family members. Now she is establishing this enduring legacy (sadqa e Jariyah) at her alma mater in honor of her deceased parents. What a wonderful way to honor one's loved ones.

She is a role model for me.

Bashir Chaudhary
